

VORTEX

A State-of-the-Art Human Waste Disposal Unit

A WORLD LEADER IN HOSPITAL HUMAN WASTE MANAGEMENT

The Vortex macerator is a unique and efficient system designed to deliver safe, clean and germ-free disposal of human waste.

The Vortex macerator delivers a superior solution to the human waste challenge in hospitals. Using only cold water and a simple mechanical action, in a non-dry maceration cycle, the Vortex disposes of Vernacare's molded pulp utensils in a safe and efficient manner.

The Vortex offers many superior benefits:

- Ease of use with "hands free opening" reducing cross contamination
- "One-Button" operation with an easy to read LCD indicator panel
- Innovative, sleek design ensures that surfaces are easy to wipe down and maintenance is quick and easy
- Automatic Cleaner/Deodorizer Dispenser automatically dispenses while running and is easy to refill
- Accessible front and side panels allows for easy maintenance
- Energy efficient with a less than 2 minute cycle that uses only cold water, saving both time and energy

Vortex Product Information Details

Item Number:	V40-300	V40-310
Electrical Requirements:	220 volts	110 volts
Cycle Time:	2 minutes	
Water Requirements:	Cold water only
