1 Introduction

1.1 Purpose of this RFQ

This Request for Qualifications (“RFQ”) is issued by His Majesty the King in right of the Province of British Columbia as represented by the Minister of Transportation and Infrastructure (the “Province”). The purpose of this RFQ is to invite interested parties to indicate their interest in, and their qualifications for, Highway 1 - 264th Street Interchange Project (the “Project”).

Through the process described in this RFQ, the Province anticipates identifying up to three Respondents to be invited to participate in the next phase of the Competitive Selection Process, the Request for Proposals (“RFP”) phase.

The purpose of the Competitive Selection Process is to identify a qualified entity (“Design-Builder”) with whom the Province may enter into a contract (the “Design-Build Agreement”) to design and construct the Project. The contract value is estimated to be in the range of \$300million to \$500million.

Approval has been received to proceed with the release of this RFQ. The RFP will be issued upon the approval of the final investment decision (currently anticipated in November 2023).

This RFQ is not a tender or an offer or a request for proposals, and there is no intention by the Province to make an offer by issuing this RFQ.

If a capitalized term is not defined in Section 6 of this RFQ, it will be defined in the section of this RFQ in which it is first used.

1.2 Administration of this RFQ

Infrastructure BC Inc. (“Infrastructure BC”) is managing this RFQ and the Competitive Selection Process on behalf of the Province.

1.3 Eligibility

Any interested party, or parties, may submit a Response to this RFQ. Respondents may be individuals, corporations, joint ventures, consortia, partnerships, or any other legal entities. If the Respondent is not a legal entity, the Respondent will act through the legal entity or entities comprising the Respondent.

1.4 Background

The Province is committed to upgrading Highway 1 through the Fraser Valley by implementing the Fraser Valley Highway 1 Corridor Improvement Program (the “Program”). The Program completed Phase 1 in 2019 with the extension of the high-occupancy vehicle (“HOV”) / electric vehicle (“EV”) lane system between 202nd Street and the new 216th Street interchange (approximately 2.8 km). Phase 2 of the Program involves the widening of Highway 1 from 216th Street to 264th Street (approximately 10 km) which is currently in the construction phase and is anticipated to be completed in 2025.

The Province intends to continue improvements through Phase 3 of the Program, which will be delivered in two parts (Phases 3A and 3B). Phase 3A includes 10 km of integrated highway improvements from 264th Street to Mt. Lehman Road. This phased approach will allow the Province to address the most urgent needs at the west end of the corridor through Phase 3A.

This RFQ is for the portion of Phase 3A consisting of the Highway 1 - 264th Street Interchange Project which includes design and construction of a new 264th Street interchange and 5.3 km of highway works; the balance of Phase 3A will be tendered separately.

1.5 Project Description

The Project includes the following elements:

- a) Upgrading the existing 264th Street interchange to accommodate increased traffic volumes and highway widening. The structures and ramps will be designed to current standards to improve safety and reliability.
- b) Highway 1 widening to include:
 - i. an HOV / EV lane in each direction, from approximately 1.6 km west of 264th Street to 3.7 km east; and
 - ii. bus-on-shoulder lane in each direction, for approximately 3.7 km east of 264th Street.
- c) Active transportation infrastructure improvements, including:
 - i. a multi-use path (“MUP”) along the north side of Highway 1 from the 264th Street interchange to approximately 3.7 km east; and
 - ii. improved active transportation connections at the 264th Street interchange.

- d) A new transit exchange at the 264th Street interchange, including a bus loop and vehicle parking with approximately 180-200 stalls.
- e) A new truck parking lot at the 264th Street interchange with approximately 25 stalls.

Figure 1 shows the approximate extents of the Project and Figure 2 shows the concept for the 264th Street interchange.

1.6 Further Information

To receive any further information in connection with this RFQ, as per section 3.5, Respondents are required to have fully completed, signed and returned the Receipt Confirmation Form, attached as Appendix B of this RFQ, to the Contact Person.

Public information relating to the Project is available on the Project Website at: www.gov.bc.ca/264toHighway11.

1.7 General Scope of Design-BUILDER’s Responsibility

The Design-BUILDER will enter into the Design-Build Agreement with the Province and will serve as the single point of contact for the Province under the Design-Build Agreement.

1.7.1 DESIGN-BUILD AGREEMENT

The Draft Design-Build Agreement will be included with the RFP and will, among other things, detail the technical specifications for the design and construction components of the Project, the scope of the services to be provided by the Design-Builder, and commercial terms.

The Definitive Design-Build Agreement, incorporating revisions and amendments to the Draft Design-Build Agreement, will be the basis upon which Proposals will be prepared in response to the RFP.

1.7.2 DESIGN AND CONSTRUCTION

The Design-Builder will be responsible for all aspects of design and construction in accordance with the requirements and specifications set out in the Design-Build Agreement. The reference concept design will be provided to Proponents at the release of the RFP. During the RFP phase Proponents will be required to develop a concept for the Project that satisfies the terms of the Definitive Design-Build Agreement.

A summary of significant components of the anticipated design and construction scope is set out in Table 1. This should not be considered an exhaustive list.

TABLE 1 – SUMMARY OF ANTICIPATED DESIGN AND CONSTRUCTION SCOPE

Anticipated Design and Construction Scope

- Detailed design and construction of permanent works and any temporary works necessary to facilitate construction.
- Demolition and removal of the existing 264th Street bridge structure and any other abandoned structures.
- Adherence to the requirements of any Province-obtained permits, approvals, and authorizations.
- Acquisition of all other necessary permits, approvals, and authorizations, including those required pursuant to applicable federal and provincial regulatory requirements and legislation.
- Coordination with the Province’s contractors in carrying out advance works and concurrent works.
- Protection and relocation of utilities required within the Project site.

- Maintenance of designated infrastructure to specified standards during construction (including pavement, structures, drainage, etc.).
- Adherence to quality, health and safety, communications, environmental, and archaeological requirements.
- Performance of traffic management in active construction areas.

1.7.3 OPERATIONS AND MAINTENANCE DURING CONSTRUCTION

The Project site will be defined in the RFP. The Design-Builder will be responsible for the operation and maintenance of the designated infrastructure within the Project site, excluding routine winter maintenance, until substantial completion.

The scope of the work for operations and maintenance activities includes all services associated with the management, planning, and delivery of the operations and maintenance to ensure compliance with the performance measures and standards set out in the Design-Build Agreement.

1.7.4 COMMUNICATIONS AND ENGAGEMENT WITH STAKEHOLDERS AND WITH THE PUBLIC

The anticipated allocation of responsibilities between the Province and the Design-Builder for traffic management communications, community relations, and media relations relating to the Project is as follows:

- a) The Design-Builder will be responsible for developing and implementing traffic communication plans, and providing a comprehensive traffic communications program for the duration of the Project, which will provide the public, municipalities, stakeholders, businesses, commuters, and traffic media with regular and timely traffic information; and
- b) The Province will develop and implement community relations activities, public and stakeholder information, and media relations, supported by the Design-Builder.

1.7.5 INDIGENOUS GROUPS

As part of its work to create true and lasting reconciliation with Indigenous peoples in British Columbia, the Province is implementing the United Nations Declaration on the Rights of Indigenous Peoples (“UNDRIP”) and adopting the Truth and Reconciliation Commission of Canada’s Calls to Action.

The Design-Builder should anticipate Indigenous engagement requirements will include obligations to engage Indigenous groups in a manner that aligns with the Province's commitment to implementing UNDRIP.

The Design-Builder will be responsible for providing training, employment, and contracting opportunities to identified Indigenous groups. It is further anticipated that the Design-Builder will be required to engage with identified Indigenous groups directly, and/or assist the Province in engaging with identified Indigenous groups regarding project plans, updates, and issues of interest to Indigenous groups.

1.7.6 THIRD PARTY INTERFACE

The Province will clarify the requirements of, and the Design-Builder's obligations in respect of, certain third parties affected by or having jurisdiction in relation to Project activities during the RFP stage. Such third parties may include other construction contractors, maintenance contractors, utility companies, the Township of Langley, and the City of Abbotsford.

The Design-Build Agreement will include requirements for the Design-Builder to coordinate its activities with other parties performing other work on or near the Project site including the Province's incumbent maintenance contractor(s).

1.7.7 PROJECT LABOUR

The Project will not be delivered under the Community Benefits Agreement between BC Infrastructure Benefits Inc. and the Allied Infrastructure Related Construction Council of BC. The Province is in the process of determining a project labour agreement and/or procurement contract terms for the Project. This decision will be confirmed at the RFP stage.

1.7.8 RESPECT IN THE WORKPLACE

An objective of the Province is to have a construction site that is free of racism and discrimination and is culturally safe and respectful. To support achieving this objective, the Province requires all Proponents to commit to developing and implementing appropriate policies and training. Approval of suitable policies and a training plan will be a requirement of the Design-Build Agreement and a prerequisite for construction to commence.

1.7.9 GENDER-BASED ANALYSIS PLUS

Gender-Based Analysis Plus ("GBA+") will inform development of the Project and is an analytical tool used to assess how diverse groups of people may experience policies, programs, and initiatives. More information on GBA+ is available at: www.gov.bc.ca/gov/content/gender-equity.

1.8 Commercial Terms

Key commercial terms the Province anticipates will be included in the Design-Build Agreement are summarized as follows:

- a) **Term** – The term of the Design-Build Agreement will commence at Contract Execution and cover the design and construction period through to completion of the Project, subject to any warranty obligations.
- b) **Payment** – The Design-Builder will receive progress payments as defined in the Design-Build Agreement.
- c) **Performance Mechanism** – A performance incentive mechanism will be implemented to encourage the Design-Builder to meet performance requirements.
- d) **Warranty** – The Province anticipates requiring the Design-Builder to provide a two-year warranty.

1.9 Work by the Province

The Province is carrying out advance works related to utility relocation/accommodation, property acquisition, environmental permitting, site investigations, median spoil removal and tree/shrub clearing, public and stakeholder engagement. The status of these advance works is presented below. Further details will be shared with Proponents during the RFP phase.

1.9.1 UTILITIES

The Province has protocol agreements in place with most utility providers; for the others, the Province is in the process of negotiating project-specific agreements. The Design-Builder will be able to rely on these agreements for coordination/implementation of utility relocations.

1.9.2 PROPERTY

It is anticipated that the Province will acquire the land rights necessary to accommodate the Project to the extent that such land rights are not currently held by or on behalf of the Province. Engagement and negotiation with property owners and tenants has commenced for early property acquisitions. The Design-Builder will be provided with access to the lands required for the Project.

1.9.3 ENVIRONMENTAL PERMITTING

The Province has initiated the process to obtain a Fisheries Act Authorization and a Water Sustainability Act Change Approval and is targeting to have these environmental permits in place prior to, or shortly after, the release of the RFP. The Design-Builder will be required to

adhere to the requirements of these permits and to obtain any required amendments to suit the Design-Builder's design.

1.9.4 SITE INVESTIGATIONS

1.9.4.1 Geotechnical

Several geotechnical investigations have been completed to characterize ground conditions along the various road and ramp alignments and at anticipated bridge locations to support reference design activities and to provide baseline geotechnical data for the Design-Builder. The geotechnical investigations included boreholes, cone penetration testing, piezometers, and laboratory testing. Instrumented test fill preloads are also planned for construction in Fall 2023 to provide additional information for the Design-Builder's geotechnical design and to reduce the quantity of Highway 1 median infilling required.

1.9.4.2 Utility Potholing

A utility potholing program has been carried out to locate utilities within the project limits. Utility locations and elevations at the pothole locations will be shared with the Design-Builder for use in design and construction planning.

1.9.4.3 Archaeological

An Archaeological Overview Assessment was carried out for the Project, and it was determined that an Archaeological Impact Assessment is not required. In certain areas of the Project site, the Design-Builder will be required to adhere to the Project's chance find protocol to look for and report potential artifacts, if encountered.

1.9.4.4 Environmental Investigations

The Province has or is undertaking the following environmental investigations:

- a) Terrestrial and aquatic plant and wildlife surveys in support of the Province-obtained permits noted above;
- b) A soil characterization program to determine if there are contaminated sites within the Project limits; and
- c) Bird nesting surveys in support of tree/shrub clearing.

The reports of these investigations will be made available to the Design-Builder.

1.9.4.5 Survey Control and Baseline

The Province has established survey control monuments and base mapping in the Project area for use by the Design-Builder. The Province will update the base mapping, as required, following median spoil removal, tree/shrub clearing, and test fill preload construction.

1.9.5 MEDIAN SPOIL REMOVAL AND TREE/SHRUB CLEARING

Subject to permits/approvals, the Province plans to tender contracts in fall 2023 for median spoil removal and tree/shrub clearing. Under these contracts, most of the trees and shrubs within the Project area (excluding environmentally sensitive areas) and several median spoil piles will be removed in advance of the Design-Builder mobilizing to site. Any remaining spoil removal and clearing necessary for implementing the Design-Builder's design, including work in environmentally sensitive areas, will be the responsibility of the Design-Builder.

1.9.6 PUBLIC AND STAKEHOLDER ENGAGEMENT

In 2021, the Province engaged with the public and stakeholders on Phase 3 of the Program to better understand what transportation concerns individuals have around the Highway 1 and since then all identified priorities have been incorporated into the Project. To update the public and stakeholders on the status of the Program, including the concepts for Highway 1 widening and the 264th Street interchange, the Province initiated an information mail-out and a virtual open house in July 2023.

The virtual open house, including display boards and discussion guide, can be viewed on the Project Website at: www.gov.bc.ca/264toHighway11.

1.10 Engagement with Indigenous Groups

The Province has a duty to consult with Indigenous groups where it proposes to take actions that could impact asserted interests of Indigenous groups. The Province has initiated Indigenous consultation and will continue to take the lead on this consultation through to Project completion.

2 Competitive Selection Process

This section describes the Competitive Selection Process that the Province expects to implement in selecting a Preferred Proponent. The anticipated Competitive Selection Process includes an RFQ phase and an RFP phase.

2.1 Request for Qualifications Phase

The Province anticipates that it will select, at its discretion, a shortlist of up to three Respondents to be Proponents. The shortlist is intended to include those Respondents who have successfully demonstrated to the satisfaction of the Province, at its discretion, that they are the best qualified Respondents based on the criteria described in this RFQ. Shortlisted Respondents will be required to deliver an executed Proponent Agreement, substantially in the form shown in Appendix G of this RFQ, in order to proceed to the RFP phase. The Province anticipates that it will issue an RFP to that shortlist only, from which a Preferred Proponent may be selected in accordance with the terms of the RFP.

2.2 Request for Proposals Phase

The Province's objective at the RFP phase is to select, in accordance with the terms of the RFP, a Preferred Proponent with whom it may enter into the Design-Build Agreement.

2.2.1 CONSULTATIVE PROCESSES

The Province intends to include in the RFP phase consultations with Proponents relating to technical and commercial matters through workshops and topic meetings in accordance with the terms of the RFP. This process is intended to allow Proponents to provide comments on Project-specific issues raised through the process.

These processes are anticipated to involve each of the Proponents and other relevant parties and may include exchanges of information, discussions, clarification of issues and review of documents and specifications through workshops and topic meetings, and to provide for the submission and consideration of comments on and proposed amendments to the Draft Design-Build Agreement leading to the development of the Definitive Design-Build Agreement. The consultative processes are intended to focus on items that are Project-specific in nature.

2.2.2 TECHNICAL SUBMISSION

The Province anticipates that the technical submission under the RFP will include the following:

- a) a conceptual layout identifying key elements of the Proponent's preliminary design; and
- b) the Proponent's management approach to items such as quality, construction, key risks, traffic management, environment, Indigenous engagement, and communications.

2.2.3 FINANCIAL SUBMISSION

The Province anticipates that the financial submission under the RFP will occur after the technical submission and include the following:

- a) a commitment to enter into the Definitive Design-Build Agreement by the Proponent; and
- b) committed pricing for the Project inclusive of all taxes except GST.

2.3 Compensation for Participation in Competitive Selection Process

No compensation will be available to Respondents for participating in the RFQ phase of the Competitive Selection Process.

If the Competitive Selection Process is completed, and a Design-Build Agreement is executed and delivered, it is anticipated that a stipend in the amount of \$1,500,000 (the "Stipend") will be available to each Proponent participating in the RFP phase that is not selected as the Preferred Proponent, on the terms and subject to the conditions, including as to eligibility for payment, as set out in the RFP.

If the Competitive Selection Process continues to the RFP phase and is terminated for reasons described in the RFP, it is anticipated that a termination fee in an amount equal to the out-of-pocket costs incurred by a Proponent to prepare its Proposal, subject to a maximum amount of up to \$3,000,000 (the "Termination Fee") depending on when the termination occurs, will be available to each Proponent on the terms and subject to the conditions, including as to eligibility for payment, as set out in the RFP.

The conditions for payment of the Stipend and Termination Fee include, among other things, transfer of intellectual property rights and execution and delivery of a full and final release of Claims and a waiver of liability.

1.0 DEFINITIONS AND INTERPRETATION

1.1 Capitalized terms not otherwise defined in this Proponent Agreement have the meaning given to them in the RFP.

2.0 PARTICIPATION

2.1 The Proponent and each of the Proponent Team Members agree that as a condition of participating in the RFP, including the Competitive Selection Process,

Without limiting the foregoing, the Proponent and the Proponent Team Members agree:

- (a) that the terms of the Proponent Agreement do not limit the obligations and requirements of the Proponent and the Proponent Team Members under the RFP, any Data Room agreement, or any other document or requirement of the Province;
- (b) to be bound by the disclaimers, limitations and waivers of liability and Claims and indemnities contained in the RFP, including Section 3.16 (Releases and Waivers) of the RFP.
