1 INTRODUCTION

1.1 PROJECT OVERVIEW

The Steveston Interchange Project is comprised of improvements to the existing Highway 99/Steveston Highway interchange to enhance safety and efficiency. These upgrades will improve local travel in this area of Richmond and enhance access to/from Highway 99. The Project also complements the future new George Massey Crossing and represents part of the related corridor improvements associated with this future major project. The Steveston Interchange Project will:

- improve travel time and reliability through Richmond, with congestion-reduction time savings that will help reduce greenhouse gas emissions;
- improve safety for all modes of traffic;
- improve access to/from Highway 99 and the adjacent area;
- accommodate all modes of forecast traffic growth resulting from planned population and employment growth; and
- support community and economic development with better access to/from the future new George Massey Crossing.

1.2 SHORTLISTED RESPONDENTS

Through a request for qualifications (“RFQ”) issued on June 22, 2021, the following three Respondents were identified as eligible to receive this request for proposals (“RFP”) and to be invited to participate further in the Competitive Selection Process as Proponents:

- Aecon | NorLand General Partnership
- Cascade Coast Infrastructure Group
- Flatiron Constructors Canada Limited

Only these three Proponents, subject to changes in the Proponent Team membership as permitted by this RFP, may submit Proposals or otherwise participate in this RFP.

1.3 REQUEST FOR PROPOSALS OVERVIEW

The Province is issuing this RFP as part of the Competitive Selection Process for the Project. It is anticipated that through the Competitive Selection Process one of the Proponents will be identified as eligible to be selected as the Preferred Proponent and be offered the opportunity to enter into a Design-Build Agreement (“DBA”) for the delivery of the Project.

1.3.1 RFP Structure

This RFP contains the following three volumes:

- Volume 1 – Instructions to Proponents;
- Volume 2 – Draft Design-Build Agreement; and
- Volume 3 – RFP - Forms.

2 OVERVIEW OF DESIGN-BUILD AGREEMENT AND PROJECT WORK

The DBA will set out the rights and obligations of the parties in respect of the Project and will contain, among other things: the technical specifications for the design and construction of the Project; the scope of the services to be provided by the Design-Builder; and other commercial terms.

The DBA will be developed through processes, further detailed in this RFP, that include:

- (a) issuance of a Draft DBA as Volume 2 of this RFP;
- (b) consideration of comments from Proponents on the Draft DBA, submitted in writing and as part of Workshops and Topic Meetings;
- (c) incorporation of amendments by Addenda into the initial and any revised form of Draft DBA, which amendments may address any such Proponent comments; and
- (d) issuance by Addendum of a Definitive DBA as Volume 2 of this RFP.

Any description or overview of either the Draft DBA and/or the Definitive DBA in this Volume 1 is provided for convenience only and does not supersede, supplement, or alter the Draft DBA and/or the Definitive DBA, as applicable. If there are any inconsistencies between the terms of either the Draft DBA and/or the Definitive DBA and the description of those terms set out in this Volume 1 of this RFP, the terms of the Draft DBA and/or the Definitive DBA, as applicable, will prevail.

2.1 DESIGN-BUILD AGREEMENT PARTIES

The parties to the DBA will be the Province, BCTFA and the Design-Builder.

2.2 DESIGN AND CONSTRUCTION

The Design-Builder will be required to carry out all aspects of Design and Construction in accordance with the DBA.

The Province developed a Reference Concept for the Project that is the basis for property acquisition, environmental requirements, site preparation and cost estimates. To promote innovation, Proponents are encouraged to develop Proposals that may differ or vary from the Reference Concept, and that still comply with the requirements of the DBA.

A summary of the Design and Construction scope is provided in Table 1 below. This summary should not be considered exhaustive in terms of design and construction responsibilities or complete in terms of the scope, all of which are fully set out in the DBA.

Table 1 - Summary of Design and Construction Scope

Summary of Design and Construction Scope
<ul style="list-style-type: none">• Replace the existing Steveston Highway bridge structure crossing Highway 99 with a new bridge structure(s)• Modify the existing Highway 99/Steveston Highway interchange ramps to connect to the new Steveston Highway bridge structure(s)• Improve existing transit facilities in the direct vicinity of the Highway 99/Steveston Highway interchange• Improve connections to adjacent municipal roads• Construct new pedestrian and cyclist facilities• Perform traffic management• Perform utility protection/relocations, including relocation of the reversible lane control system• Maintain designated infrastructure to specified standards during construction (including pavement, structures, drainage, etc.)• Meet quality, health and safety, communications, environmental, and archaeological requirements

2.2.1 Community Benefits

The Design-Builder will be required to implement and report on the community benefits objectives in the delivery of the Project, in accordance with the DBA, including but not limited to:

- (a) preparing plans for the achievement of apprenticeship and training and equity employment targets, and reporting on accomplishments;
- (b) achieving apprenticeship and training targets;
- (c) achieving employment targets for equity groups traditionally underrepresented in the skilled workforce; and

The Design-Builder will be required to provide information and documentation pertaining to the Design-Builder's compliance with the community benefits objectives as set out in the DBA. Incentive payments are provided to encourage the Design-Builder to exceed the apprenticeship and training and equity employment targets as set out in Schedule 13 of the DBA.

Each Proponent and its Proponent Team Members (other than its Key Individuals) will also be required to execute and provide in its Technical Submittal, a Letter of Adherence in the form as attached to the Special Project Needs Agreement for the George Massey Crossing - Corridor Improvements located in

the Data Room, and the Design-Builder and Subcontractors will be required to carry out all Project Work comprising “Capital Works” (as defined in the SPNA) in accordance with the SPNA.

2.2.2 Identified Indigenous Groups

The Province is in discussions with Identified Indigenous Groups regarding applicable opportunities. The Design-Builder’s requirements with respect to Identified Indigenous Groups will be set out in Schedule 12 to the DBA. It is anticipated that the Design-Builder will be required to meet specified targets for such opportunities, which may include contracting opportunities. The Province will provide Schedule 12 to Proponents by Addendum.

2.2.3 Utilities

The Province has contacted and received information from Utility Suppliers, including location data. This data is available to the Proponents in the Data Room, subject to the terms of use applicable to the Data Room.

2.2.4 Traffic Management

The Design-Builder will be required to comply with Traffic Management provisions set out in the DBA. In accordance with the DBA, the Design-Builder will be required to make payments to the Province if the traffic management requirements set out in the DBA are not met.

2.2.5 Operations and Maintenance

The Design-Builder will be responsible for operations and maintenance of the Project Site, excluding routine winter maintenance, until Substantial Completion.

2.2.6 Archaeology

The Design-Builder will be required to undertake the Project Work in a manner that avoids non-permitted disturbances to archaeological and heritage objects. The Design-Builder will be required to comply with all permitting obligations in accordance with the DBA.

2.2.7 Acceptable Equivalent

The Design and Construction Requirements are intended to generally be performance-based, but include, in some instances, specific requirements related to design and construction that the Province considers are important to meet the Province’s objectives. However, the Province wishes to provide some flexibility for Proponents to propose equivalent alternatives that when considered by the Province, in its discretion, continue to meet the Province’s objectives (each an “Acceptable Equivalent”).

A Proponent may submit an RFI marked “Commercial in Confidence – Acceptable Equivalent” that identifies the applicable section(s) in the Design and Construction Requirements that contain the requirement(s) and the Proponent’s proposed equivalent that it considers will be equal to or better than the specified requirement(s) and that will still meet the Province’s objectives, along with supporting materials.

The Province may, in its discretion:

- (a) respond to indicate that the proposed equivalent is acceptable;
- (b) respond to indicate that the proposed equivalent is acceptable subject to the Proponent's compliance with any conditions identified by the Province;
- (c) respond to indicate that the Province does not consider the proposed equivalent to be acceptable;
- (d) request clarification, further information or additional material;
- (e) not respond to the RFI; or
- (f) provide any other response in accordance with Section 3.3 of Volume 1 of this RFP.

The provisions of Section 3.3 of Volume 1 of this RFP relating to “Commercial in Confidence” RFIs will apply, including with respect to withdrawal of an RFI, RFIs by more than one Proponent on the same or similar topics, or the Province's determination if there is a matter which should be brought to the attention of all Proponents.

If the Province responds to a “Commercial in Confidence” RFI or responds to any RFI that is not “Commercial in Confidence”, regarding a proposed equivalent to indicate that the proposed equivalent is acceptable, a Proponent may make its Technical Submittal on the basis of the response, and the use of the acceptable equivalent will not in and of itself be a failure to meet the requirements set out in Appendix B to Volume 1 of this RFP.

Unless the Province responds to indicate that a proposed equivalent is acceptable, a Proponent is at risk that the use of a proposed equivalent will not substantially meet the requirements set out in Appendix B to Volume 1 of this RFP and that the Province may not invite the Proponent to provide a Financial Submittal.

The Province will be under no obligation to provide the indication of acceptability of the proposed equivalent to the Proponent or to any other Proponent.

Despite any indication by the Province of the acceptability of an equivalent, the Design-Builder remains responsible for fulfilling all of its obligations and responsibilities under the DBA.

Following selection of the Preferred Proponent, the DBA will, in accordance with Section 3.10 of Volume 1 of this RFP, be amended to include all acceptable equivalent(s) used by that Preferred Proponent, or negotiated by the Province and the Preferred Proponent, whether or not proposed by any other Proponent.

2.3 COMMUNICATIONS AND ENGAGEMENT

The Design-Builder will be responsible for developing and implementing traffic communications plans and providing a comprehensive traffic communications program for the duration of the Project, which will provide

the public, stakeholders, businesses, commuters and traffic media with regular and timely traffic information.

The Design-Builder's obligations regarding communications and engagement are set out in the DBA. Key communications and engagement responsibilities include but are not limited to:

- (a) notification of construction activities;
- (b) traffic and incident management communications;
- (c) stakeholder engagement;
- (d) enquiry-response management; and
- (e) supporting the Province's community relations activities, public and stakeholder consultation and media relations.

2.4 ENVIRONMENTAL

The Project will be constructed under the existing Environmental Assessment Certificate (EAC #T17-01). Applications for an Environmental Assessment Certificate Amendment and Extension were submitted to the Environmental Assessment Office for review. An amended and extended EAC is anticipated to be issued in Fall 2021.

The Design-Builder will be required to perform the Project Work in compliance with all applicable environmental obligations including the EAC, the applicable Table of Conditions requirements of the EAC, and applicable Environmental Permits, as described in the DBA, including Schedule 6. These obligations include, but are not limited to:

- (a) protecting valued ecological components and socio-economic features within the Project Site during construction activities associated with the Design-Builder and sub-contractors;
- (b) securing, where necessary, and complying with the conditions of environmental permits and approvals from regulatory agencies;
- (c) reducing potential environmental liabilities;
- (d) assuring the construction proceeds in accordance with all regulatory requirements and Best Management Practices (BMPs);
- (e) ensuring compliance with the EAC, including the Table of Conditions;
- (f) mitigating environmental impacts during construction; and
- (g) ensuring all monitoring and reporting requirements for environmental aspects are undertaken and documented.

A Construction Environmental Management Plan template developed by the Province will be available to, and amended by the Design-Builder, to meet the requirements of the DBA.

2.5 LANDS

The Province will, subject to the requirements of this RFP and the DBA, acquire all lands and land interests identified as Project Lands. The Design-Builder will be provided access to the lands required for the Project for the purpose of performing its obligations under the DBA. The ownership of the lands will not be transferred to the Design-Builder.

The Land Identification Drawings identify Project Lands, including those held by way of Temporary Land Rights. The Design-Builder may use Project Lands held by way of Temporary Land Rights for the purposes of construction staging or other construction management activities. No permanent infrastructure may be constructed on these lands.

2.6 QUALITY MANAGEMENT

The Design-Builder will be required to develop and implement a Quality Management System in accordance with the DBA and the ISO 9001:2015 Standard. The Design-Builder will undertake internal and external quality audits of the Quality Management System throughout the Term as required under the DBA.

The Design-Builder will be required to meet certain requirements for testing and inspection at origin, and re-inspection in Canada, of structural components that have been manufactured or fabricated outside of Canada or the United States as set out in Part 3 of Schedule 7 to the DBA.

2.7 PAYMENTS AND PERFORMANCE MECHANISM

The Design-Builder will receive Progress Payments, and be required to comply with a performance mechanism, in accordance with the terms of the DBA.

2.7.1 Payments and Warranties

Each Progress Payment will be subject to a 5% Progress Payment Holdback. Upon reaching Substantial Completion, the Province will release the Progress Payment Holdback amount minus a Deficiency Holdback and a Warranty Holdback, both described in the DBA.

2.7.2 Key Aspects of the Performance Mechanism

The DBA includes a performance mechanism which may, subject to and in accordance with its terms, trigger payment obligations of the Design-Builder to the Province and/or the accumulation of NCE Points and/or Default Points as set out in the DBA.

2.7.3 Liquidated Damages

The Design-Builder will be required to pay Liquidated Damages if the Design-Builder fails to achieve Substantial Completion by the Substantial Completion Target Date in accordance with the DBA.

2.7.4 Performance Security

The Design-Builder will be required to obtain a \$25 million performance bond and a \$25 million labour and materials payment bond written by a surety or sureties authorized to conduct business in British Columbia.

2.8 WORK BY OTHERS

The Design-Builder shall cooperate and coordinate with other parties involved in the Project, or working in proximity to the Project, so as not to interfere with each other's work, and to ensure the efficient coordination of each other's work, and the resolution and/or mitigation of any concerns, including but not limited to:

- (a) coordination and management of affected portions of traffic control systems, including the existing George Massey Tunnel reversible lane control system, through meetings with the Ministry's highway maintenance contractor, Mainroad Lower Mainland Contracting Limited Partnership;
- (b) coordination and compliance with the emergency activities of, and coordination with the maintenance activities of the Ministry's highway maintenance contractor; and
- (c) coordination with the City of Richmond's proposed improvements along Steveston Highway west of Highway 99.

3.1 AFFORDABILITY REQUIREMENT

As part of their Proposals, Proponents are required to calculate a Contract Price Proposal in accordance with Section 3.2 of Volume 1 of this RFP. The Contract Price Proposal must not exceed the Affordability Requirement.

3.2 CONTRACT PRICE PROPOSAL

The Contract Price Proposal is to be calculated by the Proponent using Form 3 of Volume 3 of this RFP.

3.3 COMMUNICATIONS AND REQUESTS FOR INFORMATION

3.3.1 Communications

- (e) if the Province decides that an RFI marked "Commercial in Confidence", or the Province's response to such an RFI, must be distributed to all Proponents, then the Province will permit the Proponent to withdraw the RFI rather than receive a response. If the Proponent does not withdraw the RFI, then the Province may provide its response to all Proponents;

 - (iv) if the Province determines there is any matter which should be brought to the attention of all Proponents, whether or not such matter was the subject of an RFI, including an RFI marked "Commercial in Confidence", the Province may, in its discretion, distribute the RFI, response or information with respect to such matter to all Proponents.

3.4 CONSULTATION PROCESS

The Province will facilitate a consultation process with the Proponents which may include exchanges of information, discussions, and clarifications of issues through Workshops and Topic Meetings, and the submission and consideration of comments on and proposed amendments to the Draft DBA. Workshops and Topic Meetings may occur after the Technical Submittal Deadline.

3.4.1 Workshops and Topic Meetings

The Province expects the consultation process to include:

- (a) one or more workshops ("Workshops") to enable communication between the Province and the Proponents with respect to commercial and legal matters, and which will be concerned with providing a process that helps ensure Proponents have a complete and accurate understanding

of the Project, the opportunity to provide the Province with comments and feedback on material issues, including the Affordability Requirement or provisions in the Draft DBA, and to discuss any suggestions they may have, all in accordance with and as further detailed in this RFP including in Section 3.4.2 of Volume 1 of this RFP;

- (b) one or more topic meetings (“Topic Meetings”) to facilitate discussion between the Province and the Proponents in respect of specific topics which may be (but are not limited to) technical issues; all in accordance with and as further detailed in this RFP including Section 3.4.2 of Volume 1 of this RFP; and
- (c) any other meetings, consultations or facilitative or facilitated processes in conjunction with or as part of the Competitive Selection Process.

The Province may in its sole discretion from time to time, by written notice to the Proponent, deliver to the Proponent written policies and procedures clarifying, supplementing, or otherwise modifying the terms of the Workshops and Topic Meetings procedures set out in this RFP, and on issuance of such written policies and procedures the Workshops and Topic Meetings procedures will be amended, supplemented, or replaced as applicable.

Each Proponent Team Member will:

- (d) ensure that the Proponent participates in all Workshops where required in accordance with Section 3.4.2(a) of Volume 1 of this RFP;
- (e) observe, abide by, and comply with the terms of this RFP in respect of the Workshops and Topic Meetings;
- (f) execute and deliver a waiver and agreement in respect of the Workshops and Topic Meetings substantially in the form set out in Form 8 to Volume 3 of this RFP in advance of the first Topic Meeting;
- (g) ensure that each individual in attendance on behalf of such Proponent Team Member at the Workshops or Topic Meetings:
 - (i) observes, abides by, and complies with the terms of this RFP in respect of Workshops and Topic Meetings; and
 - (ii) reviews, executes, and delivers to the Province before attendance of the first Workshop or Topic Meeting, a waiver and agreement substantially in the form set out in Form 8 to Volume 3 of this RFP.

One Topic Meeting and one Workshop are planned, as indicated below and further referenced in Table 2 in Section 3.11 of Volume 1 of this RFP:

- (h) a Topic Meeting in the form of an all-Proponent information meeting; and

- (i) one mandatory Workshop that is anticipated to include separate meetings between the Province and each Proponent to discuss the Proponent's comments and feedback on material issues including the Affordability Requirement and provisions in the RFP and Draft DBA

The Fairness Reviewer will be invited to all Topic Meetings and Workshops.

The Province may, in its discretion, including at the request of any Proponent(s), schedule additional Workshops or Topic Meetings, if the Province considers it desirable or necessary, schedule such additional Workshops and Topic Meetings at the dates, times and locations and for the duration that the Province considers appropriate, and hold such Workshops and Topic Meetings separately with each proponent or together with all the Proponents.

3.4.2 Procedures for Workshops and Topic Meetings

(a) Workshops

- (i) Unless the Province notifies the Proponents that a Workshop is optional, the Proponent will attend each Workshop and may, subject to any restrictions established by the Province on prior written notice to the Proponent, determine the appropriate representative or representatives, including the number of representatives, who will attend each Workshop on behalf of such Proponent.
- (ii) Each Proponent will attend all Workshops that are designated by the Province as optional, unless a Proponent provides written notice to the Province at least 5 business days before the scheduled Workshop date that such Proponent has declined the invitation to attend, provided that the Province may proceed with the applicable Workshop with the other or others of the Proponents that have not declined attendance at any such additional optional Workshop.

(b) Workshop Agendas and Summaries

- (i) Prior to each scheduled Workshop and not later than the date specified by the Province in its written notice to the Proponents, each Proponent will deliver to the Contact Person a list of requested agenda items, if any, and including any issues, comments and requested amendments to the Draft DBA proposed to be discussed at such Workshop.
- (ii) Any issues, comments and requested amendments to the Draft DBA should be submitted in table format, identifying the Draft DBA wording that is the subject of the issue, the comment or requested amendment, highlighting the Proponent's priorities, and setting out the corresponding summary of the issue or comments, and where applicable the requested substitute wording and accompanying memorandum summarizing the rationale for the requested amendment.

(c) Topic Meetings

- (i) Attendance at Topic Meetings is not mandatory, and the Proponent or any of the other Proponents may decline to take part in any one or more Topic Meetings, provided that the Province may proceed with a Topic Meeting or Topic Meetings with the other or others of the proponents that have not declined attendance at any particular Topic Meeting.
- (ii) The Proponent may, subject to any restrictions established by the Province on prior written notice to the Proponent, determine the appropriate representative or representatives, including the number of representatives, who will attend each Topic Meeting on behalf of the Proponent.

3.4.3 Non-Binding Nature of Topic Meetings and Workshops

No part of the evaluation of the Proponent's Proposal will be based on:

- (a) information obtained or shared;
- (b) the conduct of the Proponent, the Proponent Team Members, other proponents or their respective proponent team members, the Province, BCTFA, TI Corp, Infrastructure BC, or their respective representatives, including officers, directors, employees, consultants, agents, and advisors; or
- (c) discussions that occur;

at or during any Workshop or Topic Meeting.

In any Topic Meeting or Workshop a Proponent may seek information or comments from the Province and the Province in its sole discretion may, but in no event will be obligated to, determine whether to provide, and the timing and method for providing, any such information or comments, or any response at all.

If a Proponent wishes to have any matter confirmed, including any statement made by any of the Releasees at a Workshop or Topic Meeting, the Proponent will submit an RFI describing the matter and requesting that the Province confirm the matter by Response to Proponents and, if the matter relates to a clarification or change to a term of this RFP or the Draft DBA, requesting that the Province confirm the matter by Addendum clarifying or amending, as the case may be, the applicable term of this RFP or the Draft DBA.

3.4.4 Finalization of the Design-Build Agreement

The Province will issue the Draft DBA as Volume 2 of this RFP. In addition to considering comments and issues discussed in the Workshops and Topic Meetings, the Province may from time to time invite Proponents to review and submit further comments in respect of the Draft DBA.

Any information or documentation provided to, or which comes to the attention of the Province at, or in connection with, any Workshops or Topic Meetings, including in, or as a result of questions raised during any such meetings, and further Proponent-requested amendments or information relating to commercially sensitive matters, may be subject to disclosure to the other Proponents in the discretion of the Province.

Proponents may submit additional comments, requested amendments and issues following these discussions.

The Province will consider comments, issues and requested amendments to the Draft DBA received from the Proponents. Without limiting any other provision of this RFP, including Section 5.1 of Volume 1 of this RFP, the Province may in its discretion, on its own initiative, or as a result of Proponent comments or requests, at any time and from time to time, including after the Technical Submittal Deadline, by Addenda amend, restructure, or supplement the initial and any revised form of Draft DBA, including by incorporating any such Proponent requested and any other changes.

The Province will issue the Definitive DBA by Addendum as Volume 2 of this RFP.

 - (ii) the Province may, in its sole discretion, do any one or more of the following:

 - (ii) the Province fails to execute and deliver an agreement substantially in the form of the DBA contemplated to be finalized and settled in accordance with the process described in this RFP on or before the Proposal Validity Period for such Proponent after receipt by such Proponent of notification of its selection as Preferred Proponent, provided that such failure is not a result of a failure by such Proponent to satisfy any conditions precedent set out in the DBA or a result of the Province and such Proponent having been negotiating a DBA as contemplated in this RFP; or
- (b) within 10 days following the later of the execution and delivery of the DBA by such Proponent and all other parties thereto.

delivered an agreement substantially in the form of the DBA contemplated to be finalized and settled in accordance with the process for settling the DBA described in this RFP, is not solely as a result of a major disabling event (other than a disruption of financial markets) which could not have been reasonably prevented by and is beyond the reasonable control of the Proponent Team Members of such Proponent and which such Proponent can demonstrate to the satisfaction of the Province, acting reasonably, would substantially frustrate or render it impossible for the Design-Builder to perform the obligations of the Design-Builder under the DBA for a continuous period of 180 days.

- (b) If the Proponent selected as the Preferred Proponent that has delivered such Preferred Proponent Security Deposit in accordance with this RFP notifies the Province in writing in accordance with this RFP that such Proponent disputes the Province's right to call on and retain the Preferred Proponent Security Deposit, then:
- (i) the Province may, in its sole discretion, nonetheless call on the Preferred Proponent Security Deposit and retain and apply the proceeds of the Preferred Proponent Security Deposit in accordance with this Section 3.7.10;.
 - (ii) the retention and application of the proceeds of the Preferred Proponent Security Deposit will be without prejudice to the right of such Proponent to dispute the Province's right to call on and retain the Preferred Proponent Security Deposit; and

3.8 DEBRIEFING

4.1 BACKGROUND INVESTIGATIONS, SURVEYS, AND STUDIES

Investigations, surveys, and studies have been and are anticipated to continue to be undertaken with respect to the Project. Reports and other material relating to these activities are included in and will continue to be added to the Data Room.

4.2 INVESTIGATIONS, SURVEYS, AND STUDIES BY PROPONENTS

Each Proponent is responsible for conducting its own independent due diligence and for satisfying itself as to all aspects of the Project, including assessments, investigations, examinations, surveys, and studies which they consider necessary, desirable, beneficial, or appropriate at their own cost.

Proponents are responsible for making their own arrangements in respect of access to lands that are not owned or administered by the Province.

Proponents will coordinate any field work or any access to any non-public part or parts of the Project Lands and adjacent areas, including to any part of lands owned, operated, or administered by a railway, through the Province by submission of a request to the Contact Person, to ensure that inconvenience to landowners, tenants, road users, and other contractors is kept to a minimum, and to ensure that environmental, safety and time constraints are taken into account. The request for access should be submitted as early as possible, and in any event at least 96 hours in advance of the time for any proposed access and should include the requested access or field work date(s), time(s), location(s), and proposed field work or activities.

The Province will provide no insurance or workers compensation coverage for any matter whatsoever to any Proponents, Proponent Team Members, or any of their respective contractors, subcontractors, directors, officers, employees, consultants, advisors, representatives or agents, or any other Persons associated with any of them. The Province has established a Data Room for the Project and the Competitive Selection Process.

Proponents are solely responsible for checking the Data Room frequently and on an ongoing basis to inform themselves of any such updates. Proponents are solely responsible for ensuring that they have software, which allows them access to, and use of, any information in the Data Room.

In the event of conflict or inconsistency between material downloaded from the Data Room and the applicable material as posted in the Data Room, the posted contents of the Data Room will govern and take precedence.

All information in the Data Room is subject to the terms of the Proponent Agreement and the Data Room Terms of Access.

5.2 NO CONTRACT

Other than to the extent provided for in the Proponent Agreement, this RFP is not a contract between the Province and any Proponent, nor is this RFP an offer or an agreement to purchase work, goods or services. No contract of any kind for work goods or services whatsoever is formed under, or arises from this RFP, or as a result of, or in connection with, the submission of a Proposal, unless the Province and the Preferred Proponent execute and deliver the DBA, and then only to the extent expressly set out in the Design- Build Agreement.

Without limiting any other term of this RFP, if the Province fails to select a Preferred Proponent within 180 days after the Financial Submittal Deadline or terminates the Competitive Selection Process or cancels any part of the Competitive Selection Process, including this RFP, at any time and subsequently proceeds with any one or more of the activities, processes or works described in subsections 5.3(a) to (g) above, the Province may in its sole discretion:

- (i) contract directly with any person for any or all matters related directly or indirectly to all or any part of the design, construction, operation, financing or fare collection in respect of all or any part or parts of the lands and infrastructure comprising or anticipated to comprise the Project; and
- (j) contract directly with any one or more of any of the Proponent Team Members of any of the Proponents, or with any one or more of the contractors, sub-contractors, consultants, advisors or other Persons engaged by or through any of them, and no Proponent Team Member of any Proponent will take any step or action that might prevent or impede the Province from so doing.

A negotiation process referenced in this Section 5.3 may:

- (i) proceed with any Person whom the Province considers, in its discretion, to be capable of completing the Project, or any parts thereof, for a price and on terms and conditions acceptable to the Province, and to be otherwise appropriate.

5.4 PROPOSAL REVIEW AND EVALUATION

The evaluation of Proposals will be conducted by the Province with the assistance of other persons as the Province may decide it requires, including technical, financial, legal, and other advisors or employees and representatives of the Province, Infrastructure BC, TI Corp, and other government agencies and private sector advisors and consultants.

The Province will evaluate Proposals in the manner set out in Appendix B.

The Province may in its discretion establish its own methods and procedures for the review, evaluation and ranking of Proposals and the selection of a Preferred Proponent, if any.

The Province may in its discretion take any one or more of the following steps, at any time and from time to time in connection with the review and evaluation, including ranking, of any aspect of a Proposal, including if the Province considers that any Proposal or any part of a Proposal requires clarification or more complete information, contains defects, alterations, qualifications, omissions, inaccuracies or misstatements, or does not for any reason whatsoever satisfy any requirements of this RFP at any time, or for any other reason the Province in its discretion deems appropriate and in the interests of the Province and the Competitive Selection Process, or either of them:

- (a) waive any such defect, ambiguity, alteration, qualification, omission, inaccuracy, misstatement, or failure to satisfy, and any resulting ineligibility on the part of the Proponent, or any member of the Proponent Team;

which in the opinion of the Province: (i) is materially incomplete or irregular, (ii) contains omissions, exceptions or variations not acceptable to or material to the Province, (iii) contains a false or misleading statement, claim or information, or (iv) for which background investigations reveal any false statements, criminal affiliations or activities by a Proponent or Proponent Team Member and their respective contractors, subcontractors, directors, officers, employees, consultants, advisors, representatives or agents, or any other Persons associated with any of them.

To enable the Province to take any one or more of the above-listed steps, the Province may enter into separate and confidential communications of any kind whatsoever, including by meetings or interviews, with any person, including any Proponent. The Province has no obligation whatsoever to take the same steps or to enter into the same or any communications in respect of all Proponents and Proposals, or in respect of any Proponent, including the Proponent whose Proposal is the subject of the review or evaluation, as the case may be.

The review and evaluation, including the ranking, of any Proposal may rely on, take into account and include any information and documentation, including any clarification, more complete, supplementary, and additional or replacement information or documentation, including information and documentation obtained through any of the above-listed investigations, research, analyses, checks, and verifications.

Proponents will not submit any clarifications, rectifications, information, or documentation in respect of the Technical Submittal after the Technical Submittal Deadline and in respect of the Financial Submittal after the Financial Submittal Deadline, without the prior approval of the Province or at the invitation or request of the Province.

If any information, including information as to experience or capacity, contained in a Proposal is not verified to the Province's satisfaction through such checks, the Province may, in its discretion, not consider such cited experience, capacity or other information.

The Province is not bound by industry custom or practice in taking any of the steps listed above, in exercising any of its discretions, in formulating its opinions and considerations, exercising its discretions in making any decisions and determinations, or in discharging its functions under or in connection with this RFP, or in connection with any Proponent or any Proposal.

The Province has no obligation or duty, in any way, whether in contract, tort or otherwise, to accept the Proposal that receives the highest ranking in accordance with the evaluation criteria set out in this RFP, or any Proposal.

5.5 PARTICIPATION IN THE COMPETITIVE SELECTION PROCESS

If a Proponent fails to observe any term of this RFP or to comply with any term of the Proponent Agreement, or fails to ensure that its Proponent Team Members and their respective contractors, subcontractors, directors, officers, employees, consultants, advisors, representatives or agents, or any other Persons associated with any of them observe the terms of this RFP or of the Proponent Agreement, or the Province becomes aware through investigations or checks, or otherwise, of false statements, criminal affiliations or activities by a Proponent or any Proponent Team Member or any of their respective contractors, subcontractors, directors, officers, employees, consultants, advisors, representatives or agents, or any other Persons associated with any of them, as the case may be, the Province may, in its discretion at any time and from time to time, including during the review and evaluation, including ranking, of any Proposal:

If any such conflict exists but notice is not given by a Proponent, the provision which, in the sole opinion of the Province, will provide the higher overall value or benefit to the Province, will govern and take precedence.

Subject to the foregoing, in the event of any conflict or inconsistency, the DBA, including all schedules to the DBA, will govern and take precedence over this RFP.
