Appendix 1F	pendix 1F Door, Windows and Door Hardware Schedule (interior and exterior)														
Requirement	th of the rooms and spaces noted in this Table require doors. The Design-Builder is responsible to determine the nature and design of all such doors based on the design, layout and function of the applicable room or space and adjacencies, the requirements of this Schedule 1 Statement of quirements and Good Industry Practice. This Table is not intended to be enhancing of the door requirements for the Besign-Builder. The Design-Builder shall work with the work of the door states, door types, and handware required to be provided by the Design-Builder. The Design-Builder shall work with the work of the Design development process and the provisions of the Review Procedure apply.

Appendix 1F Door and Window Schedule - Windows (interior and exterior) Each of the rooms and spaces noted in this table Table require doors; however, the Design-Builder is to determine the nature and design of all such windows (exterior and interior) doors based on the design, layout and function of the applicable room or space and adjacencies, the requirements of this Schedule 1 (Design and Construction Specification) and Good Industry Practice. This Table is not intended to be exhaustive of the window requirements for the Facility but provides only an indication of some of the exterior and interior windows required to be provided by the Design-Builder. The Design-Builder will need to work with the Owner to review further.
